# SVAC Reports

Xin Chen

Brief summary

- **Carry out quick analysis of the data and display results on the web**
  - **Identify serious problems ASAP**
  - **People not familiar with ROOT analysis can get a feeling of the instrument**

- **Automatically run in the pipeline, the plan is to produce**
  - **one report based on the digi root data (implemented)**
  - **another report based on the recon root data (not implemented yet)**

- **Need advices/suggestions from subsystem experts on what to put in the report**

A demo

- **Run 139000230**
