Data Handling Working Group

- No DH group meeting last week.

- Pipeline II
  - Migrated P-II database to GLASTDEV Oracle instance.
  - Updated XML importer to find process dependencies and add them to the database.
  - Extended web interface to allow submitting tasks.
  - Updated process-execution code to include creating substreams.

- Beam-Test data delivery:
  - Configuring FASTCopy s/w on BT “bastion” host today.
  - BT acquisition systems are shipping to Pisa tomorrow.
