Science Verification, Analysis and Calibrations

Anders W. Borgland
From 6 towers to 8 Towers to 8 Towers+ACD

• Installing towers 7 and 8 right now:
  – Grid positions 12 and 13
• 8 tower testing:
  – Starts next week
• CAL calibrations:
  – Scheduled for August 16-18
  – Subject to change ....
• Calibrations will now be done in parallel:
  – Will (re)calibrate all 8 CALs.
    – Previously we only calibrated the two new CALs.
    – Zach is making sure calibGenCAL can handle the parallelization
• SVAC Data runs:
  – Scheduled for August 18-23
  – Subject to change ....
• ACD arrives at SLAC in the middle of August!
  – What kind of runs do we want to take?
  – Need to start preparing now!
Workshop 5 is only 3 weeks away!
