Checklist: Software

- **Geometry verification**
  - G4
  - Recon: only a handful of numbers
  - Signed off by subsystems
- **Sources**
  - Tuned up as best we know; interfaced to G4
- **Root classes**
  - MC Truth additions?
  - Doc
  - Example macros
  - Root → IDL
- **RootWriter**
  - Event data
  - HSK data (?)
Checklist: Data Handling

- Get disk space ready
- Oracle database for datasets
- Scripts
  - Raw to Root conversion
  - G4 MC
  - Recon
  - Read/write to database
- Web interface
  - Dataset conditions
  - Dataset properties

Should be same tools as for PDR!
