

**Cost/Schedule Reports for
Presentation
November 2006 Month End
4.1.C EPO**

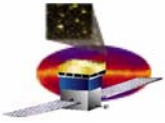

Accomplishments for December 2006

- **Sarah Silva and Logan Hill presented “Black Holes in the Classroom” at Alvarado Middle School on December 4 & 5. We taught 11 one hour sessions about black holes using the Active Galaxy Pop-up book, the AGN animation, and the Tasty AGN activity. This was highly successful and we hope to continue doing work like this once the pop-up book is approved through the NASA product review.**
- **Continued planning for the upcoming symposium. As of right now we have an educator workshop scheduled from 7 -9pm on Monday Feb. 5th and we also have a free showing and reception of the Black Hole Planetarium show on Wednesday Jan 7th.**
- **Prepared for the January AAS includes poster presentation, booth organization, and meetings.**

Accomplishments for November

- We are submitted the following products to the product review.
 - **New Submissions:**
 - Solar Supernova
 - English and Spanish version of the Black Hole FAQ
 - Magnetic Globe Demo
 - SLAC Virtual Visitor Center LAT Simulator
 - Active Galaxies Pop-up Book
 - **Resubmission:**
 - Active Galaxies educator guide and poster
- We received the following items in preparation for GLAST launch:
 - GLAST launch magnet (Sent to AAS)
 - GLAST lanyards (Sent to AAS)

September Variance Report

- We are in the process of catching up on expenses and finishing many many projects.
- We received our remaining FY06 funds right before the Christmas holiday so now we can pay our old bills. 😊
- Unfortunately we still have not received an extension to continue work past December 31, 2006. This is having a great impact on our work as we are not allowed to rehire some employees.
