

**Gamma-ray Large  
Area Space  
Telescope**

A vertical banner for the GLAST mission. At the top is the GLAST logo, which consists of the letters 'GLAST' in a stylized, metallic font with a satellite orbiting around them. Below the logo is the text 'Gamma-ray Large Area Space Telescope' in a blue, sans-serif font. The main part of the banner is a colorful image of a gamma-ray background, showing a bright yellow and white band across the center, surrounded by a field of red and blue points. At the bottom of the banner is a row of flags representing the international partners: France, Germany, Italy, Japan, Sweden, and the United States, followed by the NASA logo.

# ISIS Milestones

---

- The following items were successfully completed on the date given:
  - ✓ **Safe Connection Procedure - December 16, 2004**
    - Test Report: LAT-MD-05691
    - Witnesses: Joe Cullinan (QA), Eric Hansen (TD), Jana Thayer (TC)
  - ✓ **Acceptance Test Procedure – January 21, 2005**
    - Test Report: LAT-MD-05690
    - Witnesses: Kelly Burlingham (QA), Dave Harmon (GSFC), Eric Hansen (TD/TC), Jana Thayer (TD/TC), Tim Morse (Spectrum), and others
  - **Post Acceptance Test Review – January 28, 2005**
    - Witnesses: Jeff Fisher, Mike Huffer, Dick Horn, Erik Andrews, Eric Hansen
  - **ISIS shipped – January 27, 2005**

## Finishing Touches

- Put together a “training package”
  - PowerPoint presentation
  - User’s guide – short, sweet, to-the-point
- Follow up on
  - ITOS translation issues
  - SDIS issues
