REQUEST FOR ACTION (RFA) FORM

GLAST LAT Project
ISOC Peer Review
March 2, 2004

Action Item #   16

Presentation Section/Subject Area: Sect 1 – Lung – slide 23 / ISOC Heritage

SPECIFIC REQUEST:

The slide indicates that ISOC will build on I&T and SAS functionality. The mechanism for ISOC requirements being placed on I&T and SAS is not obvious. How do ISOC requirements get levied on I&T and SAS? Does ISOC sign off on I&T and SAS specs and functional designs?

REASON/COMMENT:

If the claim for heritage is of any value, the tools developed by I&T and SAS need to meet the requirements of ISOC.
